

Welcome To A Brighter Future  
With **Solar Energy**

# Who Are We ?

**RK Green Mount Energies** committed to providing innovative and sustainable solar solutions that help you reduce energy costs and contribute to a greener planet. with years of experience in the industry, we specialize in customized solar installations for residential, commercial, and industrial applications.

Our mission is to empower individuals and businesses to embrace sustainable energy solutions that not only reduce their environmental impact but also enhance their financial well-being. we are committed to delivering high-quality, innovative solar technologies.

## Sustainability

Our solar solutions are designed to maximize energy efficiency. by generating your own electricity, you not only reduce your dependency on the grid but also minimize energy waste, leading to a more sustainable lifestyle or business operation.

## Our Energy Portfolio

We are a leading provider of innovative solar energy solutions dedicated to powering homes and businesses with clean, renewable energy. our mission is to make solar energy accessible, affordable, and efficient for everyone, contributing to a sustainable future for our planet.

## Our Solutions

At **RK Green Mount Energies**, we offer a range of cutting-edge solar solutions designed to meet the diverse needs of our clients. whether you're a homeowner looking to reduce energy bills or a business aiming to enhance sustainability, we have the expertise and technology to make it happen.

### Industrial

We provide highly efficient mass solar systems that sync with your existing power generation system that can power your industries all year long

### Commercial

We offer the best available technologies to create cost-effective renewable energy for your commercial space.

### Residential

We follow a customized approach to offer residential solar solutions of different capacities as per your unique needs.

# Why Choose Us?

With years of experience in the solar industry, our team of engineers, technicians, and project managers brings unparalleled expertise to every project. we have successfully designed and installed numerous solar systems across various sectors.

## Unprecedented Pre-Sales Support

Choosing the right solar solution is a significant decision. that's why we offer unparalleled pre-sales support to guide you through every step of the process, ensuring you make an informed and confident choice.

## Constant Development

Our Commitment To Constant Development Drives Us To Continuously Refine Our Technologies, Processes, And Services, Ensuring That We Deliver The Most Advanced And Effective Solar Solutions To Our Clients.

## Innovative Solutions

our innovative energy storage solutions allow you to store excess energy generated during the day for use at night or during peak demand periods. by pairing your solar system with advanced battery technology.

## Bank Financing

We Recognize That Transitioning To Solar Energy Is A Significant Investment. To Make This Transition More Accessible And Financially Manageable, We Offer Flexible Bank Financing Options Tailored To Your Needs.

## Energy Audit

Our Team Of Experienced Professionals Assesses Your Solar Energy Requirements Free Of Cost As Part Of Our Energy Audit. It Helps Us Analyze Your Energy Flows To Identify; All Possible Opportunities To Reduce Your Carbon Footprint And Energy Expense.

## Benefits Of Solar Energy

Renewable Resource

Cost Savings

Reduces Electricity Bills

Eco-Friendly

Low Maintenance

Low Noise Pollution

# Our Services

At **RK Green Mount Energies**, we pride ourselves on offering a complete range of services that ensure your transition to solar energy is seamless and stress-free. from initial consultation to ongoing support, we're with you every step of the way.

## Engineering, Procurement & Construction (EPC)

We offer full-service engineering, procurement, and construction (epc) solutions, providing end-to-end project management for your solar energy projects. our epc services ensure that your solar installation is executed with precision, efficiency, and the highest standards of quality.

## Operations And Maintenance (O&M)

Our o&m services begin with state-of-the-art monitoring systems that track the performance of your solar installation in real-time. by continuously monitoring key performance indicators, we can quickly identify and address any issues, ensuring that your system delivers consistent energy output

## Power Purchase Agreement (PPA)

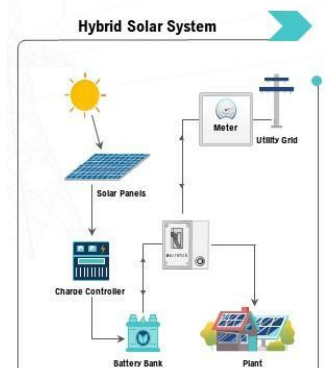

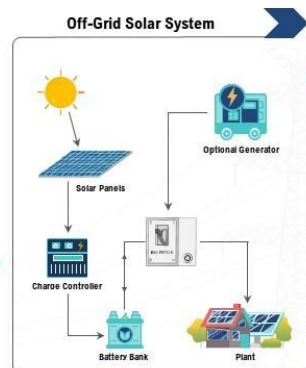

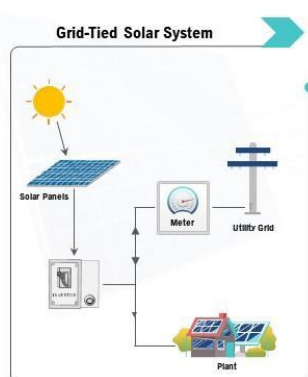

we offer flexible power purchase agreements (ppa) that make it easier for businesses and organizations to transition to solar energy without the upfront costs. our ppa model allows you to enjoy the benefits of solar power with no initial investment, providing a hassle-free way to reduce energy costs and carbon footprint

## Build-Operate-Transfer (BOT)

The build-operate-transfer (bot) model is a project financing and management strategy where rk solar energy designs, builds, and operates your solar energy system for a specified period. at the end of the agreed term, ownership and full operational control of the system are transferred to you.

## SOLAR CONFIGURATION SYSTEM

# Choose What Suits You

We offer a range of customizable options, allowing you to choose the solar solution that best fits your lifestyle, budget, and energy goalsour team will create a solution that maximizes energy production and efficiency based on your unique site conditions

## GRID CONNECTED SYSTEM

**Suitable For:** All Customers With Shadow-Free Roof / Ground

**Product Range:** 1 KW To Multiple MWs

**Features:**

- Best Quality Panels • Inverters & Other Components For Max Generation • Design Life • Remote Monitoring On Mobile & Web

## BATTERY BASED SYSTEM

**Suitable For:** Homes, OCes, Industries With Problematic Grid Reliability

**Off-Grid Systems:** Power Critical Lighting Loads, Without Grid Export Functionality

**Hybrid Systems:** Power-Heavy Load, Export Excess Generation To Grid & Can Complement DG Sets

**Variants:** Lead Acid Batteries / Li-Ion Batteries

**Features:** • Advance Battery Protection Logic

## SOLAR ARTEFACTS

**Suitable For:** Villas, Housing Societies, Resorts, Roof-Top Sitting Areas

**Variants:** 18 Modules (6\*3) Array Configuration

**Dimensions:** 6m (L) X 6m (W) X 3.5m (H); 2.5m Clear Distance From Ground

**Features:**

- Multiple Designs
- Tubular Steel Column & Trusses

## **SOLAR AGRICULTURE PUMP**

**Suitable For:** Irrigation, Livestock Watering, Aquaculture, Greenhouse Watering, Water Storage

**Dimensions:** 60 X 40 Inches (1.5 X 1 Meter).

### **Features:**

- High Efficiency
- Easy Installation
- Cost-Effective
- Durability

## **SOLAR PERGOLA**

**Suitable For:** Residential Properties, Commercial Spaces, Farms And Rural Properties.

**Dimensions:** 10×12 Feet (3×3.6 Meters) To 12×16 Feet (3.6×4.8 Meters)

### **Features:**

Dual Functionality, Integrated LED Lighting, Built-In Charging Stations

## **Solar Street Lights**

our solar street lights offer a sustainable, cost-effective solution for communities and businesses.

## **Heat Pump**

Combine the power of the sun with advanced heat pump technology for an eco-friendly, cost-effective heating solution

## **Solar Water Heater**

Enjoy Endless Hot Water While Reducing Your Energy Bills With Our Advanced Solar Water Heaters.

# **Join The Solar Revolution**

Join the growing number of homeowners, businesses, and organizations who have chosen rk solar energy to lead their transition to renewable energy. with our cutting-edge technology and customer-focused approach

## Our Clients
